

Canoes, Kayaks & Accessories

Bainbridge International Limited is a privately owned UK business operating from Hedge End in Southampton.

The company, founded in Boston US in 1917, originally started by designing and manufacturing Sailcloth from Egyptian cotton. A business at the forefront of new development, Bainbridge was the first sailcloth manufacturer to pioneer synthetic sailcloth – inventing and creating the current market over 80years ago.

Since then Bainbridge has expanded - into Sail Hardware and Marine Hardware – with the incorporation of the Aqua Marine distribution business, and developed through a range of technical application products for specific customer markets including outdoor leisure, recreation and 4x4 markets.

Today the business is still growing and is managed in a way to ensure long term, sustainable partnerships are built with customers and suppliers.

Bainbridge is delighted to announce it is now partnering with Johnson Outdoors Watercraft to provide distribution of their established leading brands to the UK & Ireland markets.

This catalogue highlights our latest range which offers real value to watercraft retailers, with the very best products and brands from around the globe.

In serving our customers new and old we are continually striving to:

- Offer improved service levels – in stock and delivery
- Make transacting with us simple and easy in the way that suits you best – dedicated b2b online ordering, customer service or direct account management
- Provide in field and internal support and service
- Help you sell more Johnson product with confidence
- Ensure that our pricing is fair and equitable
- Bring you an unrivaled range of related products and brands which offer additional sales opportunities

It is an exciting time for the business as Bainbridge continues investment with the expansion of the Hedge End distribution centre and the appointment key personnel to support the Old Town, Necky, Ocean Kayak and Carlisle brands.

Key Bainbridge Facts:

- UK Privately owned
- Managed and operated from Hedge End, Southampton
- 60,000 sq ft distribution centre
- Own vehicle fleet for local/national distribution
- Team experienced in supply and service to the Marine, Recreation and Fishing trade
- Offers a range of 20,000+ additional products from the world's leading marine and recreational brands

Bainbridge looks forward to proving its leading sales and service operation – for more information please contact us on 01489 776030 or visit us at www.bainbridgetechnical.com

Construction

Lifetime Hull Warranty.

All Ocean Kayaks have an industry leading lifetime hull warranty. We're on top of that too. Stable and durable boats that are great to paddle in all types of water you enjoy. See our complete warranty information on our website, and enjoy the rest of your life being closer to the water. Limitations apply.

OCEAN RECREATIONAL

BANZAI™ GREAT FOR KIDS!

Fun on the water is the name of the game. That's exactly what you get with the Banzai, our sit-on-top kayak made especially for kids. The low-profile, kid-friendly seat allows easy movement and more mobility for small bodies. The Banzai's Tag Along system, an essential for parents, lets you tow your kids when they're too tired to paddle (though probably not too tired to splash). This playful and maneuverable kayak is perfect for kids of all ages.

FEATURES: Contoured seat well area with an extremely comfortable seat back, lightweight design, Tag Along Tow System, molded-in cup holder, carrying handles, molded-in handles, skid plate.

With the Tag Along Tow System - for tired kids to hitch a ride.

TRIDENT ULTRA 4.3™ ANGLER

First introduced 'down under' the Trident Ultra series was crafted in collaboration with pro kayak anglers from around the globe. Fast and nimble the Ultra 4.3 can handle ocean swells and glide through calm waters with surprising speed. Based on the Ultra 4.7 this shorter sibling is loaded with even more innovative features making it the benchmark for fishing kayaks.

FEATURES: Comfort Hybrid seat back, multi-functional, reversible center hatch cover, four flush mount rod holders plus in the rear, Click Seal bow hatch, adjustable foot braces, 5" hatch in the rear tank well, oversized tank well designed to take the Ice Box Storage Pod (see accessories), transducer compatible scupper with more size options, molded-in cup holder and bottle holder, replaceable wear strip on tail fin, paddle holder, molded-in side handles.

THE NEW PROWLER BIG GAME II PUTS YOU ON TOP OF THE FOOD CHAIN.

The 2014 Prowler Big Game II features the all new Element seating system with multi-position options for the ultimate on-water experience. The all-day comfort of the Element seat, combined with stern stingers designed to carry volume in the rear of the boat, the Prowler Big Game II is BIG on stability and comfort. New to the Prowler Big Game II are 6 strategically placed mounting brackets. These allow you to equip all your gear around you just the way you want it, without drilling into your hull. The Prowler provides plenty of storage space and includes the easy-to-use Click Seal bow hatch cover to keep your gear secure and dry. All of these features and more make the all new Prowler Big Game II perfect for going after the 'big one'.

FEATURES:

- Element Seating System
- 6 Accessory Mount Plates
- Oversized tank well with bungee
- Click Seal bow hatch
- Glide Track foot brace system
- Transducer compatible scupper
- Mod Pod center hatch cover
- Built in carry handles
- Paddle keepers
- Optional Rudder Kit available

The new Prowler Big Game II is a fishing machine on any water.

High
Performance

A lifetime's a long time. We're here to make sure you get the most of out of it.

All Old Town canoes and kayaks have an industry leading lifetime hull warranty. It's a bond that we've had with

all of our boat owners. We just made it formal. To have and to hold, till death do us part. See our complete warranty information on our website. Limitations apply.

Variety of manufacturing and materials designed for custom performance.

Each of our boats are designed with the paddler, their environment and function in mind. We have a strong history being first to market with new materials and processes. Regardless of the materials and hull design, know that every Old Town Canoe or Kayak is still hand crafted and finished. We are proud of this heritage and how it defines us. Visit our website to learn more about the processes and materials.

Old Town[®]
CANOES  KAYAKS

THERMOFORMED POLYETHYLENE

Thermoforming uses a single plastic sheet of high density polyethylene that literally forms a canoe right over a mold. The thermoformed plastic material is durable and provides better abrasion and impact resistance than more expensive fiberglass hulls. Compared to aluminum the plastic hull is less prone to denting and quieter during on water activity.

SINGLE LAYER POLYETHYLENE

Single layer is just that, one precisely molded layer of high performance plastic material - we named it LT9000. It's a proprietary blend of polyethylene that doesn't sacrifice weight for durability or stiffness. LT9000 delivers a great ride along with a super feel for the water under you.

THREE LAYER POLYETHYLENE

This technology allows us to produce a stiffer craft versus a traditional single-layered kayak and omits the need for added foam billets. A foam core is sandwiched in the middle of two layers of polyethylene providing built-in flotation and insulation from cold and noise.

OLD TOWN FISHING

PREDATOR¹³ PREDATOR^{MX}

PREPARE YOURSELF FOR A TOTALLY NEW FISHING EXPERIENCE. THE PREDATOR WILL BRING YOU CLOSER TO THE WATER AND THE ACTION WITH HIGHLY CUSTOMIZED FEATURES THAT ARE ENGINEERED TO MEET THE NEEDS OF AVID ANGLERS AND WEEKEND WARRIORS, ALIKE.

THE PREDATOR MX

More than a shorter version of the Predator 13. The MX stands for "mixed water" meaning this boat is designed to be equally at home on small bays, lakes, and ponds or moving water rivers and streams. The Predator MX is engineered with a small amount of additional rocker and a more blunt bow to allow it to be more maneuverable in river use. It also incorporates a wide open Exo-Ridge™ deck perfect for tackle management and spacious comfort.

- A PERFORMANCE CRAFTED TRI-HULL**
LT900 polyethylene delivers incredible durability and strength. Tri-Hull design offers superior stability and tracking.
- B SLIP RESISTANT EXO-RIDGE DECK**
Proprietary textured design ensures you and your gear stay dry and secure.
- C SCUPPER HOLES**
8 scupper holes drain away any water that enters the kayak, and include our patented one-way Scupper Valves.
- D 6 REMOVABLE MOUNTING PLATES**
Strategically placed high-strength mounts mean no more drilling into your boat hull. Customize with rod holders, fish finders, slide tracks or GPS.
- E ROD TIP HOLDERS & ROD RETAINER BUNGEEES**
Dual-tip holders at the bow make storing easy. Side-mounted retainers allow for convenient grab-and-cast.
- F EXO-RIDGE TANK WELL**
Large capacity Exo-Ridge design keeps all your gear accessible and dry. Ideal for cooler, battery for trolling motor or tackle boxes.

THE PREDATOR 13

The Predator 13 has been completely engineered - below and above the waterline - to deliver the perfect platform for fishing and on-water sporting. Old Town Pro Staff examined seating, rod placement, paddle holders and total "fish-ability" and incorporated it all into this revolutionary boat. The Predator 13 is designed to handle larger bodies of water like lakes, bays, and coastal areas. The slip-resistant Exo-Ridge deck ensures that you and your gear stay dry and secure.

G MOLDED PADDLE REST
Molded paddle rests allow for a quick placement to free up your hands.

H LARGE BOW HATCH WITH CLICK SEAL COVER
Roomy hatch opening is perfect for gear bags and more. Locks securely with one simple click. Keeps gear secure and dry.

I DUAL TACKLE HOLDERS
Convenient recessed storage on both sides provides quick access to your gear.

CENTER CONSOLE WITH MOD POD COVER (PREDATOR 13 ONLY)
Mount arrange and customize gear, including paddle leashes, GPS, fish finders and rod holders, open to reveal storage access.

YOUR EQUIPMENT. RIGHT WHERE YOU WANT IT.

CUSTOMIZE YOUR PREDATOR

The Predator comes equipped with all the essentials needed to take your fishing experience to the next level. That includes giving you the ability to customize your boat to meet your exact style and preferences.

AVAILABLE OPTIONS

Steady-Stand Bar - Additional support when standing.
Trolling Motor Mount - Makes it easy to add power.
Unlimited Opportunities - The Predator's multiple mounting plates let you add all the greatest accessories from makers like Cannon[®], Scotty[®], YakAttack[®] and RAM Mounts[®].

GET CONNECTED

Something changes when you take your fishing to the surface level. It alters the playing field and provides a more personal connection to your environment - and the battles that take place there. You just may find the closer you get to the water, the further you can take your game.

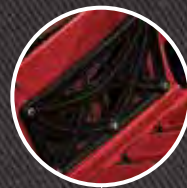

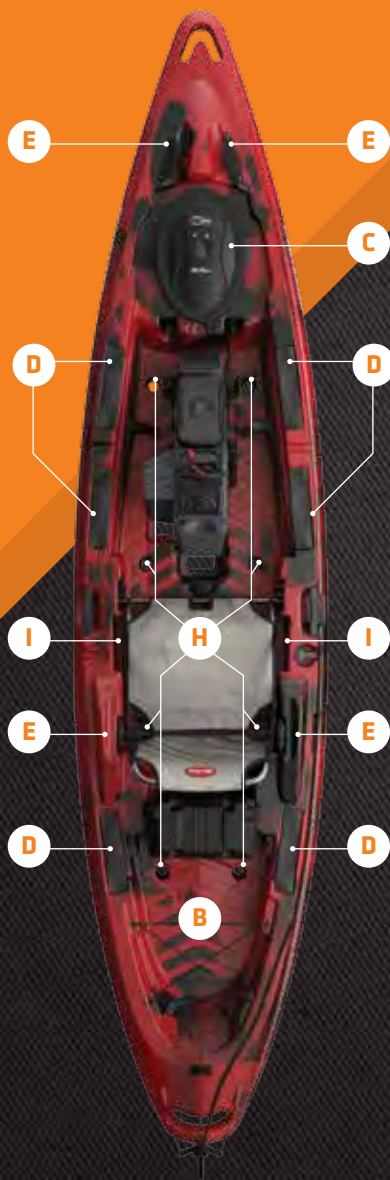

PREDATOR XL

THE NEWEST ADAPTATION OF OUR REVOLUTIONARY PREDATOR HAS BEEN UNLEASHED. A FULLY EVOLVED HYBRID, THAT CHANGES AS QUICKLY AS WE JUST CHANGED KAYAK SPORTFISHING.

XL CONSOLE SYSTEM – ADAPT IN A SNAP

Like the rest of the family, XL incorporates all the innovative Predator features that put anglers on top of the food chain. And now introduces an industry changing Modular Console System, designed for electronics, storage and power customization in just seconds. Quickly convert to power by Minn-kota, for completely hands-free all-day navigation, trolling or structure fishing.

- A PERFORMANCE CRAFTED TRI-HULL**
LT900 polyethylene delivers incredible durability and strength. Tri-Hull design offers superior stability and tracking.
- B SLIP RESISTANT EXO-RIDGE DECK**
Proprietary textured design ensures you and your gear stay dry and secure.

The New LOON ANGLER SERIES

LOON 126 ANGLER

The Loon Angler features a sleek new hull design, which is both zippy and forgiving.

With extra width and volume for stability, and incorporating the all new ACS2 seat, the Loon Angler is designed to be the most comfortable sit-inside angling kayak on the water. The new Loon Angler includes flush-mount rod holders and anchor system, and features a revolutionary new workdeck with USB and built-in storage, allowing you to easily outfit it for an adventurous day on the water.

CANOES  KAYAKS

OLD TOWN RECREATIONAL

The New SERIES

Introducing the worlds most advanced recreational kayak. 20 years ago Old Town canoe changed the way paddle sports thought about recreational kayaks with the Loon Series. Two years ago the team at Old Town set out to recreate the ultimate recreational kayak. The new Loon series features a completely redesigned hull that provides effortless glide and straight tracking. The Loon features a removable workdeck providing space for customization, cameras and gear and water. The workdeck also features dry storage and a USB charge port to keep your gadgets charged even after hours on the water. Available in multiple sizes and featuring maximum capacities of 375 and 400 pounds, the new Loon is designed to fit a wide range of paddlers.

FEATURES:

- Active Comfort System 2.0 (ACS2) Seat
- Thigh Pads (Match ACS2 Paddling)
- Click Seal Hatch with Bulkhead
- Support Track Foot Brace System
- Durable Three-layer Construction
- Removable Workdeck with USB **INCLUDED!**
- 3 sizes + ACS2 Seat = Perfect Paddler Fit
- Bow and Stern Deck Bungees
- Bow and Stern Carry Handles
- Sharp Keel Line for Performance

We first started making the Discovery Series in 1984 and over 25 years later they're still renowned for their versatility and durability. Agile, stable and easy to handle, let the Discovery help you explore new territory.

*With a motor, the maximum capacity changes to four persons or 800 pounds as regulated by the U.S. Coast Guard.

Discovery 133

Back by popular demand! Old Town has updated and re-released the tough, nimble, lightweight and versatile Discovery 133. Paddle it tandem from the nylon web seats at the bow and stern. Paddle or pole it solo. Row it effortlessly from mid-ship oar sockets or from the bow sockets. You can even outfit it with Old Town's motor mount and a small outboard. The patented Discovery 133 delivers wide-bodied steadiness, 3-layer hull construction, a keeled design and plenty of room for coolers, tackle, decoys and other gear. It's the versatile choice for anglers, hunters, nature photographers and more.

Discovery Sport 15

Perfect for sporting activities and recreational family use. Rowed, paddled or motored, it will efficiently glide and maneuver on demand. Designed with full-length stabilizing chines and a generous beam, the dry and confident ride is yours to discover.

Charles River 15

"Very steady, combining beauty in outline with speed and ease of paddling." That's how Old Town's 1903 catalog described our then-new Charles River canoe, and we believe those words ring just as true today. Enjoy this classic design with contemporary materials that provide performance and lightweight durability.

Rogue River 154 SS

The Rogue River 154 SS delivers versatility and affordability in one smartly designed canoe. It sports a square stern hull giving you the option to mount a motor when you need to. In addition, the boat features two comfortable contoured seats, molded-in cup holders, a storage hatch and a third center bench seat that doubles as a cooler. With a rugged polyethylene hull, this boat is designed to last.

ROGUE RIVER 154 SS

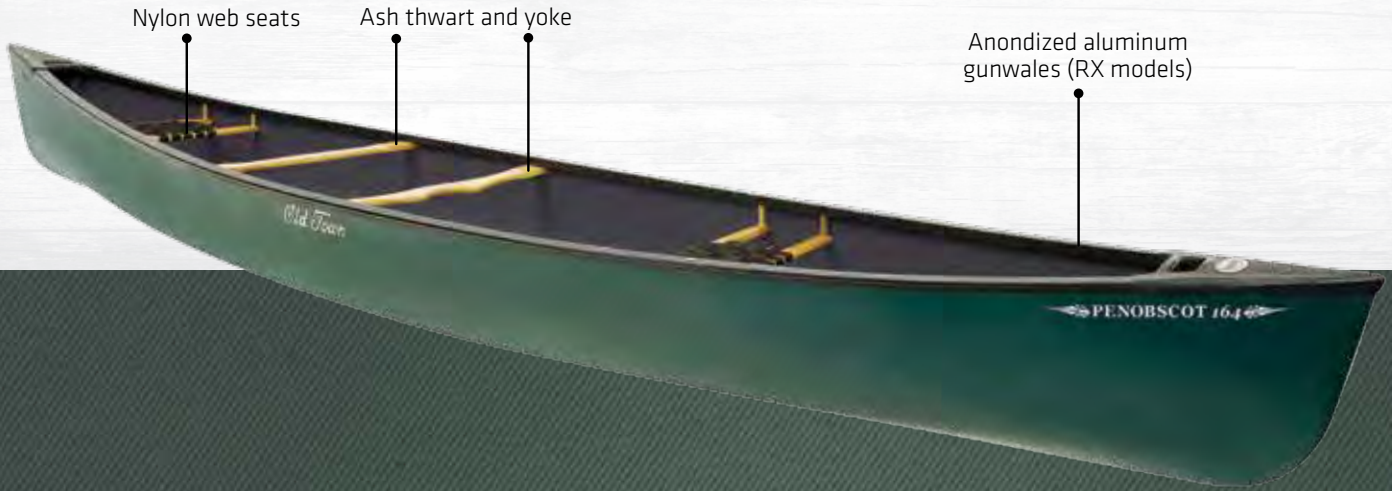

Length	15' 4.5" / 4.7 m

Penobscot SERIES

Named after the Native Americans that inhabited Old Town, Maine, since before recorded history – and from whom we’ve gained immeasurable boat-building knowledge – the Penobscot pays homage to their superb craftsmanship, design and navigational skills. The Penobscot’s nearly plumb ends, shallow arch bottom and slight rocker have made it a sleek, nimble tripping canoe for solo or tandem paddlers.

NECKY KAYAKS

We make travel compelling. Our paddlers are as distinct and different as our many kayaks.
Both become one with a balance of agility, speed, balance and maneuverability.

A PASSION TO PADDLE.

More than 30 years after the first Necky slipped from a quiet cove into the exposed unknown of the Pacific Northwest, our belief in streamlined, elegant, and purpose-built boats remains the core of our approach.

Through design and testing on this wild edge of the continent, we've found that function creates the purest form, and comfort and toughness go hand in hand.

DESIGN & ENGINEERING

Engineering a kayak is a complex proposition. For every performance element gained, another may be diminished. Kayak design is a delicate negotiation that, when done well, minimizes this sort of compromise. The paddler and the water have a say in how a boat performs as well, of course. Each paddler is as distinct as each kayak. The water is an ever-changing medium. So a kayak must be built to come alive and respond to the conditions and possibilities of both.

MATERIALS & TECHNOLOGY

We take our material choices seriously. The heart and soul of a Necky kayak is its bomb-proof, performance hull. Our advanced composite hulls set the high-end standard in the kayak industry, while the remarkably durable Necky polyethylene hulls are second-to-none in design and performance.

From our composite expedition kayaks to our most playful recreational kayaks, every Necky is crafted to optimize the performance not only of the boat, but also the paddler. Find your perfect mate here in our latest product guide. Or visit us on the World Wide Web, and discover a whole new world to explore.

RIP SERIES

The Rip family is designed to encourage paddling skills without sacrificing fun on the water. NEW for 2014 is a built in drop down skeg making the RIP both agile and maneuverable, but also a great straight tracking,

touring boat as well. And Necky put many of the best characteristics of our high-end sea kayaks into the Rip series hulls. Lively and playful on the water, the Rip won't disappoint.

ELIZA SERIES

Designed to fit and perform for smaller paddlers (up to 150 lbs.). The low aft deck offers optimum room for sculling, rolling, surf ability, and bracing. Designed from the start with an exceptional balance of glide, maneuverability and reduced drag from frictional

resistance and wind. The Eliza is the best kayak on the market to paddle efficiently, with less effort, less resistance, and less energy.

ELIAS SERIES

A lively, responsive touring kayak, the Elias takes its design cues from the popular Eliza kayak, bringing a slightly longer and larger model to market that appeals to a broad variety of paddlers. A playful and comfortable craft, the Elias offers a performance fit cockpit that enables paddlers to 'grip' the boat for

edging and lean turning while still maintaining an easy feel for the more casual paddler. Good primary stability and excellent secondary stability combine with the platform's proven low and balanced windage design to give the Elias an assuring, confident ride in even the most challenging conditions.

CHATHAM SERIES

Greenland-inspired coastal play boats built to tame the biggest conditions - high winds, surf, and tidal races. Their hard chined/soft edged hulls offer the ultimate in stability and handling on edge to dig in and out of rock gardens or taking that unexpected wave. Our design team thought of everything from offering outstanding neutrality in wind to help reduce

weather-cocking to placing the recessed compass mount in a location that reduces sea sickness. Equally at home on Vancouver's West Coast, playing in the 8+ knot currents of Deception Pass, or camping along the Maine Island Trail, Chathams are the ultimate performers in rough water conditions where high wind and rough seas prevail.

- 4 to 6 times brighter than standard equipment.
- Unbreakable: unconditionally warranted*.
- All lights feature an o-ring seal and are watertight or waterproof (minimum IP54), depending on models.
- Waterproof, corrosion-proof

and chemical resistant (highly-resistant polymer body and stainless steel metallic parts).

Tech Specifications

- Lightsource Type: Xenon.
- Length: 165mm
- Battery Run Time: 3.5 Hours
- Weight: 220g
- Batteries 4 x AA

P57928

Torch LED

Peli™ has developed top-performance and ultra-resistant torches, designed to withstand the specific harsh conditions of the marine environment. *Provided that the instructions of use have been followed. This warranty does not cover accessories such as bulbs, batteries, or the battery contents.

Features

- 4 to 6 times brighter than standard equipment.
- Unbreakable: unconditionally warranted*.
- All lights feature an o-ring seal and are watertight or waterproof (minimum IP54), depending on models.
- Waterproof, corrosion-proof and chemical resistant (highly-resistant polymer body and stainless steel metallic parts).

Tech Specifications

- Lightsource Type: L.E.D.
- Length: 67mm
- Battery Run Time: 4 Hours
- Weight: 30g
- Batteries 4 x LR

P57925

Torch Nemo Submersible Nemo

Features

- 4 to 6 times brighter than standard equipment.
- Unbreakable: unconditionally warranted*.
- All lights feature an o-ring seal and are watertight or waterproof (minimum IP54), depending on models.

Waterproof, corrosion-proof and chemical resistant (highly-resistant polymer body and stainless steel metallic parts).

Tech Specifications

- Lightsource Type: Xenon.
- Length: 198mm
- Battery Run Time: 4.5 Hours
- Weight: 360g
- Batteries 3 x C

P57926

Recon Task Light

Features

- Blue, Red, Green and White lens options
- Clip allows for hands-free use
- Lightsource Type: L.E.D.

- Lightsource Quantity: 1
- Output Color: White, Red, Green and Blue
- Housing Material: Type III anodized 6061 aluminum body
- Weight: 2.6 oz.

HOOK - FISHFINDERS

- The Hook family is the new entry-level standalone series
- Designed to specifically target the entry-level fisherman in the market for high-value electronics
- CHIRP Sonar technology
 - No other standalone competitor has integrated CHIRP Sonar with three frequency ranges
 - No other competitor has DownScan Overlay
- Simple to use
 - Intuitive page selection
 - Simple menu selections
 - On-screen sonar adjustments
- Mapping options
 - Insight Genesis
 - Insight PRO
 - Navionics
 - C-MAP
- Quick-release, tilt-swivel bracket with optional custom RAM integration
- Improved connectors for upgrade compatibility- power and transducer
- Trackback™ sonar
- Quick Release/Tilt/Swivel Gimbal Bracket
- Power cable HDS/Elite-HDI power cable

ELITE - FISHFINDERS

- Touchscreen Display
- Built-in Wireless and Bluetooth
GoFree Shop
Chart purchase/download
Insight Genesis data upload/download
- StructureScan Sonar
Integrated StructureScan and CHIRP
Sonar with simultaneous operation
- NMEA2000 Networking
- CHIRP Sonar Technology
Built-in CHIRP sonar
- High CHIRP for shallow water and high resolution detail
- Medium CHIRP for wide coverage area and better depth penetration
- Better at marking fish targets and lure tracking
Trackback™ View
- Rewind sonar to review after scanning an area- like having a two feet wide display!
- No pausing of live sonar while using Trackback View
- Bottom Color Tracking Mode
- Separates structure and fish from the bottom with distinct bottom coloring
- Mapping
- More chart options: Insight, Navionics, C-map, and more!
- Create your own personal mapping with Insight Genesis
- Engine/data sensors - Engine Interfacing

INSIGHT GENESIS PLANNER

Insight Genesis allows you to create customized maps from your own survey data for free. It is as easy as uploading a sonar log from your Lowrance chartplotter to the Insight Genesis web site. Within minutes you will receive a link to view your customized contour map. The subscription upgrade allows you to download maps for use on your compatible plotter, overlay vegetation and bottom composition views, and access community data via the new Social Mapping Layer.

NC11199001

SIMRAD - G05

Get more from every day on the water with the **Simrad G05 XSE**, a perfect fit for compact sportboats and dayboats. Behind its super-bright touchscreen lies a chartplotter with built-in GPS receiver, and Wi-Fi access to the latest charts and updates. Control your onboard sound system, monitor engine data and more over NMEA 2000®, and choose from an array of built-in sonar technologies: cruise with confidence using ForwardScan™ forward-looking sonar, or find fish like a pro with Broadband Sounder™ CHIRP sonar plus StructureScan® HD SideScan and DownScan Imaging™.

Specifications:

Display Type:	WVGA Colour TFT LCD
Display Size:	5-inch Widescreen
Display Resolution:	800 x 480 pixels
Backlighting Levels:	LED / 1200 nits
GPS Antenna Type:	10 Hz built-in GPS
Operating Temperature:	-15°C to +55°C (5°F to 131°F)
Waterproof Standard/rating:	IPX7
Width:	152 mm / 5.98 in
Depth:	57.9 mm / 2.28 in
Height:	120 mm / 4.72 in
Weight:	0.54 kg / 1.18 lb
Power Consumption:	900 mA @ 13.5 V
Power Supply (Supply Voltage):	12 V DC

Key Features

- Easy to use multi-touch interface
- Full-featured chartplotter with widest available cartography support (Insight, Navionics, CMAP)
- Plan smarter with TriplIntel™ technology
- 5-inch flush or bracket mount display
- Widescreen with bright LED backlight
- High-speed 10 Hz GPS receiver
- Broadband echosounder with CHIRP
- Built-in ForwardScan™ sonar (transducer required)
- Built-in StructureScan® imaging (transducer required)
- Built-in GoFree™ Wi-Fi
- NMEA 2000® compatible

Infinite Orbit Unit

Red - **TEXCRM009**

POWER MONKEY EXTREME BLACK

The powermonkey extreme can be recharged in three ways; via the universal mains charger, via the solar panel or via USB. Whilst the unit is recharging, the LCD screen will be red, once fully charged, the screen will turn green. When the unit is in use, the screen will be blue!

The powermonkey extreme is capable of charging iPads and tablets too. iPad 1, iPad 2, iPad 3 and iPad mini can be plugged directly into the extreme's USB socket via customer's Apple-supplied white sync/charge cable and will recharge up to 2 times depending on the model of your iPad. The iPad 4 has slightly different charging requirements and so the 2013 powermonkey extreme includes a gorilla-pad adaptor specifically for this model. The gorilla-pad plugs into the 12V DC socket and is used together with customer's Apple sync/charge cable to charge iPad 4. You can also use the gorilla-pad for the other iPads/tablets or to give yourself another 5V USB socket if required

You may also want to consider the aquastrap - a clever accessory designed specifically for the powermonkey extreme to keep it watertight whilst it charges your devices!

- Waterproof for 30mins up to 1metre , Shock Resistant - ideal for Marine Environment
- When used with additional Aquastrap it will be kept watertight whilst charging devices
- 9000mAh Lithium Polymer Battery - holds 70% of its charge for up to 12months
- Power Bank can be charged from mains and holds enough charge to recharge an iPhone 4 times
- Comes with Solar Array for charging remotely - MPPT allows efficient charging in low light conditions
- Powerbank can be charged by solar at the same time as recharging devices
- Powerbank has separate 5v USB and 12v DC port which can be used at the same time

- Friction switch on/off can be operated with gloved hand, auto shut off feature
- LCD screen shows power status of the powerbank
- Supplied with a range of connectors and leads - up to 1 metre and shock resistant - perfect for the outdoor, marine and adventure enthusiast, as well as military and aid agencies. When used in conjunction with the aquastrap, the powermonkey extreme will be kept watertight whilst it charges your devices.
