

## What is BackTow?

All conventional harnesses will tow you in a face down position with you legs pushed out behind you forcing your head underwater.

With TeamO's patented BackTow Technology, you clip on at the front as normal, but if you fall in the water, you can pull the BackTow handle and be rotated into a face up seated position, keeping airways clear and buying time for recovery.

The moveable harness point is also an approved lifting point.

## Innovation for Life

Innovation led marine safety products. Home of the award winning BackTow technology.

The TeamO marine harness is the only system that can turn a user tethered to a vessel into a safe backwards seated position.

Looking Back!  
It's obvious!

# TeamO

# TeamO

# MICRO

THE SMALLEST, LIGHTEST LIFEJACKET AROUND

- The 170N MICRO lifejacket focuses on size and weight while still providing the same buoyancy level as a large jacket
- For day sailing, power boating, racing, fishing and anyone working around water
- Ultra-low profile collar and cut-away racer back allows for total mobility
- Innovative cover design delivers all of the performance demanded from an ISO approved lifejacket, at just a fraction of the size
- The MICRO size delivers unparalleled comfort and ease of wearing
- Supplied as automatic inflation, user can convert to manual operation
- Adjustable double-buckle waist belt

# INSHORE

INSHORE ADVENTURES, ESSENTIAL SAFETY

- The 170N INSHORE lifejacket focuses on design and fit, providing entry level price point
- Designed for day sailing, rib driving, corporate charter and light commercial vessels
- Comfort fit with 3D shaping over the shoulders
- A roomier cover compared to the Micro, allows optional add-on features, including high visibility sprayhood and/or a SOLAS approved light
- Available with a choice of two firing heads: Mark 5i Automatic Inflation or Manual Firing
- Adjustable double-buckle waist belt

# COASTAL

QUINTESSENTIAL BACKTOW

- The 170N COASTAL lifejacket includes a deck harness with TeamO's patented BackTow Technology
- Designed for shorter offshore sailing, including overnight passages around coastal areas
- Comfort fit with 3D shaping over the shoulders
- Optional add-on features, include high visibility sprayhood and/or a SOLAS approved light
- Available with a choice of two firing heads: Mark 5i Automatic Inflation or Manual Firing
- Adjustable double-buckle waist belt

Patent No: 2782646

### BACKTOW TECHNOLOGY

Turns the user in to a face-up seated position if towed alongside a vessel. This keeps the airways clear of water.

# OFFSHORE

AWARD WINNING BACKTOW TECHNOLOGY

- The original 170N OFFSHORE patented BackTow lifejacket, packed with all the key features required for sailing offshore in a wide range of conditions
- Comfort fit with 3D shaping over the shoulders
- BackTow Technology harness system and fully integrated high visibility sprayhood and SOLAS light included
- Available with a choice of Pro-Sensor Elite, Hammar and user convertible Manual Firing
- AIS compatible
- Yachting Monthly's highest rated lifejacket in recent safety kit test - scored 89/100

Patent No: 2782646

### BACKTOW TECHNOLOGY

Turns the user in to a face-up seated position if towed alongside a vessel. This keeps the airways clear of water.

# OCEAN

MAXIMUM BUOYANCY FOR EXTREME ADVENTURING

- The 275N OCEAN lifejacket is suitable for use when wearing heavy weight waterproof clothing or survival suits
- Comfort fit with 3D shaping over the shoulders and double adjusters on the back for improved fit
- BackTow Technology harness system and fully integrated high visibility sprayhood and SOLAS light included
- Available with a choice of Pro-Sensor Elite and user convertible Manual Firing
- AIS compatible

Patent No: 2782646
