

Sola

Care for your cover

CARE & CLEANING

Proper care and cleaning should be taken to ensure the life of SolaTX fabrics.

For regular care and maintenance, the excess dirt should be brushed from the fabric using a soft brush: the fabric should then be sprayed with warm water and air dried.

Periodically, the fabric should undergo a more thorough cleaning. Again, brush the fabric with a soft bristled brush, spray with warm water, then apply a gentle soap. Allow to stand for 10-20 minutes taking care not to let it dry, then rinse thoroughly and air dry.

Do not use detergents and /or solvents.
