

# Impact Corriboard cover **guard**

Impact Corriboard cover guard is the ideal protection when impact resistance is a high priority. A thinner protection may allow heavy or sharp objects to damage such finishes as wood, marble, or vinyl for example. Impact Corriboard is made from a twin-fluted polypropylene board, which creates a cushion of air between the floor and any pressure upon it.

**Part Number: CG24122PP3LD**

**General Applications**

Temporary protection for vinyl, wood and marble floors. Also useful for doors and walls and can be die-cut, hot air welded, ultra sonically welded, glued and stapled.

Features		Fire retardant, waterproof, lightweight, flexible and easy to cut
Material		Twin-fluted polypropylene board printed with cover guard logo and flame retardant approved details
Material Thickness	mm	3
Colour		White
Sheet Width	m	1.2
Sheet Length	m	2.4
Sheet Coverage		3m <sup>2</sup> per sheet

**Approvals & Testing**

Fully approved and certified, tested to LPS 1207 Issue 2:2003 by Bre, certificate available upon request.

Satisfies LPS 1207 Issue 2:2003 by Bre;  
 Small flame test to BS 476 Part 12 1991  
 Large flame test to BS 5852, crib no.7  
 Smoke emission EN 2825  
 Toxic gas emission EN2826  
 Oxygen index BS2782 (Part 1 method 141 1986)  
 (ISO 4589-1984)

Certificate No.  
 688 Issue 2
